NUTRITION TIP OF THE WEEK—FROM THE KSC FITNESS CENTERS: When you think food safety, what is the first thing that comes to mind? Hopefully your answer was "washing your hands." Food safety starts with that very simple step, but a recent survey by the Food Marketing Institute reported upon observation, only 68% of people wash their hands after using the restroom. Clean hands, utensils, counters and equipment are the key to food safety. Why not check out your routine:

- Wipe counters before and after cutting up food.
- Use different cloths when wiping up raw meat juices.
- Wash hands after cutting meat, fish or poultry and before serving cooked food.
- Use different cutting boards for meats and vegetables.
- Always wash hands before and after touching children or pets.

In addition to keeping your hands and the kitchen clean, store meat, poultry and fish away from other foods to prevent cross contamination. The best place to store them is the bottom shelf so that their juices do not drip on to other foods. And don't forget to thoroughly wash produce before eating, even if you peel or cut the skin. Go the extra step for safety! (TA-C2)

FLAGS AT HALF STAFF: The flags of the United States flew at half staff at the Kennedy Space Center on September 23, 2000 in memory of Eddie Sinclair, Sr., a mechanical technician with United Space Alliance. Mr. Sinclair died on September 15 and was buried on September 23. (TA-E2)

Appointments are necessary to ensure adequate time. This program is available Monday through Friday, 7:30 a.m. to 4:00 p.m. Appointments may be made by calling 867-7398. (TA-C2)

Caring For Our Community

INSPECTOR GENERAL: The Office of Criminal Investigations (OCI) is the investigative arm of the NASA Inspector General (IG). The OCI is an independent entity and reports directly to Roberta Gross, the NASA IG, in Washington D.C. The primary mission of this component is to conduct criminal and civil investigations of reported or suspected fraudulent acts by employees, contractors, and others relating to the administration of NASA contracts and programs. Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. Suspected violations can be reported by calling 867-4714 locally, the toll free Hotline at 1-800-424-9183, or by writing NASA Inspector General, P. O. Box 23089, L'Enfant Plaza Station, Washington, D.C. 20024. The OIG Cyber-Hotline can be accessed at **www.hq.nasa.gov/office/oig/hq**. (OIG)
